

Brain Inflammation Research Group: understanding what we can do best

Monday, 2 February 2009
Cavendish Room, Chancellors Hotel and Conference Centre

9-9:25	Tea/Coffee	Arrival
9:25		Introduction
9:30	Steve Hopkins	Inflammation and infection
9:50	Charmaine Childs	The temperature of the human body: searching for accuracy and precision in measurement
10:10	Sylvia Scarth	Cytokine Immunoassay
10:30	Tim Rainey	Exploring the role and prognostic performance of serum biomarkers in TBI
10:50	Tea/Coffee	
11:10	Andy King	Research and clinical outcome measures after subarachnoid haemorrhage
11:30	Margaret Hoadley	Multiplexing the measurement of inflammatory markers
11:50	Karen Illingworth	Fibrinogen measurement
12:10	All	Discussion
12:30	Lunch	
1:30	Pippa Tyrrell	Therapeutic use of IL-1RA in cerebral ischaemia.
1:50	James Galea	Pharmacokinetic and pharmacodynamic modelling.
2:10	Sharron Hulme	Setting up a Clinical Trial
2:30	Andy Vail	"Why a statistician?"
2: 50	Tea/Coffee	
3:10	Craig Smith	Inflammation in TIA and minor stroke: where next?
3:30	Adrian Parry-Jones	Imaging clinical outcome in cerebral ischaemia
3:50	Matt Jones	Measurement of inflammation in the brain
4:10	All	Discussion
